

## Best practice analysis for Inventory For Care À La Carte (IFCALC)

Best practice (refugees & education): Effectiveness of German language education for refugees	
Is this project addressed to the right target group (refugees)?	Yes, special language education for refugees
Does this project focus on people who need care?	Not directly, more general
Specific description of target group(s):	Refugees who entered Germany with a permit to stay
How easy is implementation of this project? Please specify.	Unclear since we do not know the exact details of the program (needs further studies)
At what level is this project executed (student, teacher/employees, school/organisation, regional, national or European)?	All except national and European.
Specify at what level this project has proven its effectiveness?	Student/refugee level (language skills were impressive)
Does this project have another impact/side effect? Please specify.	Easier integration
Which parties are involved in this project?	Students/refugees, teachers, educational organisation and labour agencies
Is this project an inspiration for further developments? Please specify.	Partners will bring this example home and disseminate as a good practise
